

# Merry Christmas

DJ Bobo

The snow is falling in a cold winter night  
Stars in the sky shining bright see the light  
forget about the problems for one day in your life  
With your wife, your family, your friends and in harmony  
Let's come together help the sad and lonely through  
it could be me or you so what we gonna do  
Come and take my hand, let me understand  
Welcome to the Christmas land

Merry Christmas, merry Christmas  
Feel the power of the silent night  
Merry Christmas, merry Christmas  
See the guiding star is shining so bright  
Oh oh oho  
We're celebrating Christmas

Come and join the party of love  
Oh oh oho  
We're celebrating Christmas  
See the stars are shining above

Who wants to spend Christmas time alone  
at home on your own sitting next to the phone  
Waiting for someone who's calling tonight  
To hold you tight, let the stars shine bright  
Feel the spirit, the power of love  
These emotional moments and the sky above  
Friends are together celebrating hand in hand  
Welcome to the Christmas land
