

Mystasia, is the land
Mystasia, is the land beyond your dreams
Mystasia, come with me
Mystasia, endless hope, that's what it means

If you believe there's nothing else but a dream you are wrong
Try to look beyond
Here is the world, here is your own galaxy like it seems
The land beyond your dreams

Now take the chance to let you're feelings be free, and you'll see
You can live your fantasy
Mystasia is the place, is more than you guess, like a sign
The sun will always shine

You feel like flying in a coloured sky
You are weightless like a butterfly
What's on your mind becomes reality
A piece of heaven will set you free

If you open your eyes you can see a land
Where illusions are more than a friend
Where the rainbow appears, all the people smile
And you can escape for a while

I'm talking about a land that you don't know
You know, like a secret - or a rainbow
Where life could be paradise, sun is shinin' all the time
All around a magic place, 99 here's the sign
Fine - this will be yours and mine
We call it land of the sun with the golden shine
Free your mind - don't care about what people say
Today is the day, you better come this way
