

Open Your Heart

DJ Bobo

Don't let the sun go down on me
Open your heart
Just let me be your destiny
Open your heart
What I never felt before
I really need you more and more
Don't let the sun go down on me
Open your heart
Open your heart

Open your heart
Open your heart

Open your heart
Open your heart

Even when you're far away
You're on my mind, every night and day
Don't let me live without a goal
Deep inside you are my soul

I've been fooled by love so many times
I've been blind, I've seen no signs
You're the one for me, we'll never part
Stay with me and open your heart

I can't express what's goin' on
I feel so lonely when you're gone
Is it real or is it fake
Am I dreaming, am I awake

You're the one I have been waiting for
I can't hold it back no more
You're the one for me, we'll never part
Stay with me and open your heart

I need you, don't let the sun, go down on me
Count on me, let me be your destiny,
See you got the key, to my Heart
We'll never part, from the start till the end of time,
You're always mine, take a glass of wine
And let the sun shine, find out,
What is right or wrong,
What's going on, I feel lonely when you're gone

You're style is Magic - you hypnotize me
You came into my life, set me free
Light and energy, all around the galaxy
You made it brighter so that I could see
Like a melody in extasy,
See our love will last, eternally
Seems that your life is the golden key
Don't let the sun go down on me
