

Ready to Fly

DJ Bobo

I wanna go crazy
All my feelings loose control
My spirit, my glory
All my power in my soul

I know it's time to spread my wings, for the thrill
I know it's time to spread my wings, this is real

I'm ready to fly, ready to fly
Ready to take off, up to the sky
Ready to fly, we get high
Ready to take off, up to the sky

Ready steady go out of the dark into the light
Ready steady go, it's time to say goodbye
Ready steady go, we fly to paradise
Ready steady go where the stars are shining bright

I take all my passion
My heartbeat jumps easily
It's more than a session
Using all my energy

My body shivers to the bone, feeling fear
My body shivers to the bone, now I'm here

I'm ready to fly, ready to fly
Ready to take off, up to the sky
Ready to fly, we get high
Ready to take off, up to the sky

Ready steady go out of the dark into the light
Ready steady go, it's time to say goodbye
Ready steady go, we fly to paradise
Ready steady go where the stars are shining bright

And now my force is back forever
I use my power now or never
And like a neverending story
I close my eyes, I feel the glory
Ououououooh

I'm ready to fly, ready to fly
Ready to take off, up to the sky
Ready to fly, we get high
Ready to take off, up to the sky

Ready steady go out of the dark into the light
Ready steady go, it's time to say goodbye
Ready steady go, we fly to paradise
Ready steady go where the stars are shining bright

Ready steady go
