

# Rock The Night

DJ Bobo

We're gonna rock the night  
Yeah, yeah  
Get ready for a bite  
Yeah, yeah  
1000 years to go  
Yeah, yeah  
And now we start the show  
We're gonna rock the night

Welcome to mystery, we're able to fly  
This is your nightmare, we live and let die  
Oh yeah, that's what I like  
Here is my story, your blood's gonna freeze  
I never feel sorry, I'm a living disease  
Oh yeah, that's what I like

Strange kind of feelings in the dark of the night  
Strange kind of deamons in the pale moonlight  
Oh yeah, that's what I like  
Outhere in the nighttime is a healing beat  
No use to fight it, got to moove your feet  
Oh yeah, that's what I like

In the heat of the night in the pale moonshine  
There's no wrong or right, I'm gonna make you mine  
In the heat of the night, eyes start to glow  
My pleasure to invite, time to rock the show

In the heat of the night I wait for you  
Common feel my body I make your dreams come true  
In the heat of the night I will hear you sayingn'  
Please let me be your knight and I will be your king
