

## Summertime

DJ Bobo

Summertime - let the love birds fly tonight  
Summertime - can you feel it deep inside  
Summertime - come along and sing this song  
Let's celebrate a party all night long

No clouds in the deep blue sky  
We're so happy so don't be shy  
Summertime, I feel so strong  
Let's party all night long  
Let the sunshine in your heart  
Take my hand let the romance start  
Everybody's feeling fine  
It's summertime

See the stars they are shining bright  
Everything is gonna be alright  
Summertime goes on and on  
Let's party all night long  
Honest passion this is true  
I feel the fire just for you  
Everybody's feeling fine  
It's summertime

Now I close my eyes, I'm hypnotized  
Living in a dream like paradises  
Like Lightning, from the deep blue sky  
You entered my life and captured my mind  
Like a thief you've stolen my heart  
Made me a part of your life and made me start  
And when the night goes on, I wanna be with you  
That's true - no matter what you gonna do

Flirtin all day, laying on the beach  
Summertime is cool can you feel the heat  
Of love, you are my fantasy  
High up in the sky like birds I'm free  
Catch me I'm falling in slowmotion  
Let me show my deepest devotion  
Just one word, one smile that's true  
And all I wanna be is close to you
