

SUPERSTAR

DJ Bobo

Touch me, feel me - everywhere I loose control
Take me, kiss me - everytime with heart and soul
Beat me, kick me - yo can knock off my feet
Fool me, hurt me - your kisses taste so bittersweet
Be me, see me - treat me like a superstar
Push me, change me - wanting you is so bizarre
Read me, hear me - all my effort is not enough

Let me be your superstar
Before you break my heart
Let me be your superstar
You're tearing me apart
Let me be your superstar
And make me loose control
Let me be your superstar
Cause not I want it all
(Let me be a superstar)

Call me, date me - shoot me like a cannonball
Try me, lay me - crash me up against the wall
Love me, hate me - stronger than a shark attack
Thrill me, cry me - hide your fear behind my back
Find me, fear me - never leave me on my own
Chase me, stop me - make me shiver to the bone
Hug me, chill me, send my angels from up above

Let me be your superstar
Before you break my heart
Let me be your superstar
You're tearing me apart
Let me be your superstar
And make me loose control
Let me be your superstar
Cause not I want it all

Come baby, come baby, love me, hate me
Shoot me like a cannonball, try me, lay me
Make me shiver to the bone don't stop me
Come me thrill me, don't kill me, just me feel me
So heal me, you'll see
You know I want it all, how
I want it right here right now, now

Let me be your superstar
Before you break my heart
Let me be your superstar
You're tearing me apart
Let me be your superstar
And make me loose control
Let me be your superstar
Cause not I want it all

Let me be your superstar, oh no no no
Before you break my heart
Let me be your superstar, oh yeah yeah yeah
You're tearing me apart
Let me be your superstar
