

# There's A Paradise

DJ Bobo

And I promise you there's a paradise  
And I promise you there's a paradise  
Where it's never raining and the music's playing everything's alright  
And I promise you there's a paradise

You start to jam if you agree with me  
Let's come together we're family  
Pay close attention if you lean on me  
'Cause if you flow you know it's like I set you free  
Pop is always feelin' night romancing  
Searching for love so keep on trancing  
Here is the question if you feel real nice  
I promise you there is a paradise

And I promise you there's a paradise  
And I promise you there's a paradise  
Where it's never raining and the music's playing everything's alright  
And I promise you there's a paradise

Enjoy yourself it's no tragedy  
Enjoy yourself it's your fantasy  
Now this is the song oh baby can't you see  
The rhythm the rhymes and my melody  
You mist it up your life is show  
How far you wanna go I really don't know  
Here is the story and it's cold as ice  
Like I promised you there is a paradise

And I promise you there's a paradise  
And I promise you there's a paradise  
Where it's never raining and the music's playing everything's alright  
And I promise you there's a paradise

You start to jam if you agree with me  
Let's come together we're family  
Pay close attention if you lean on me  
Cause if you flow you know it's like I set you free  
Pop is always feelin' night romancing  
Searching for love so keep on trancing  
Here is the question if you feel real nice  
I promise you there is a paradise

And I promise you there's a paradise  
And I promise you there's a paradise  
Where it's never raining and the music's playing everything's alright

And I promise you there's a paradise  
And I promise you there's a paradise  
And I promise you there's a paradise  
Where it's never raining and the music's playing everything's alright  
And I promise you there's a paradise
