

This Is My Time

DJ Bobo

This is my time and it's gonna be alright
I'm standing strong I take my pride
It's my time, I'm burning I feel the fire
To reach the stars is my desire
It's my time

It's my time, I feel the passion in my life
This is my time, I wanna live while I'm alive
This is my time

It's now or never
The heat is on, I have it all in me
Can't live forever
This is my time tonight I set it free
I hear the music
The best is yet to come, I'm ready
I feel the power
Running through my veins

I break the silence
It's time to speak my mind I'm here to scream
Destined for glory
I'm flying without wings living my dream
I hear the music
I close my eyes it feels like heaven
Once in my lifetime
Now I want it all

It's amazing what a feeling
I've got heaven, in my mind
Goodbye to all the sad days
I feel the magic, it's my time
