

# Upside Down

DJ Bobo

You're like the sunshine on a perfect day  
I'm spinning round, I never thought I'd feel this way  
Some kind of magic simply takes control  
My heart is jumping from my head down to my toe

Let me tell you how I feel, when I'm standing close to you  
Now I have to let you know, you turn me round and round

Upside down  
You turn me inside out  
And round and round  
You turn me me upside down  
And inside out  
You spin me round and round and round  
You spin me round and round and round

A magic moment in so many ways  
When you're around me, you just take my breath away  
I have to find a better way to show  
You're my desire, you're my heart and you're my soul

And I dream of you all night, hope you always will be mine  
Now I have to tell the truth, you turn me round and round

Upside down  
You turn me inside out  
And round and round  
You turn me me upside down  
And inside out  
You spin me round and round and round  
You spin me round and round and round

Don't wanna live - without your love  
All I can give - is not enough

Tell me - why I'm falling in love with you  
Tell me - will my dreams come true  
Tell me - why I'm falling in love with  
Tell me - will my dreams come true

Upside down  
You turn me inside out  
And round and round  
You turn me me upside down  
And inside out  
You spin me round and round and round  
You spin me round and round and round

Upside down  
And round and round  
You turn me me upside down  
And inside out  
Me round and round and round
