

## Visions

DJ Bobo

Visions - Can't you see my friend  
Visions - Here is my wonderland  
Visions - Come and take my hand  
Visions - I know you understand

Come into my world, come and take your destiny  
- Here is your discovery  
Imagine places, where your dreams can come alive  
- Knowing you will soon arrive

What you see is not a dream  
And not another mystic moovie scene  
Your senses scream, a love supreme  
Sounds and colours reveal in steam - like

Envision my world, where there is no war or hate  
- We will never loose our faith  
If you believe then you don't have to justify  
- Sometimes there is no wrong or right

So can't you see, what I see  
And everybody use your fantasy  
A place for you, a place for me  
Today we gonna live in harmony - like

I tell you what you see is not a dream  
And not another mystic moovie scene  
Your senses scream, a love supreme  
Sounds and colours reveal in steam
