

Way to Your Heart

DJ Bobo

What's the way to your heart
Let me follow you, all around the world
What's the way to your heart
Let me follow you, all around the world

Yes, you are the one
Our love has just begun
Now, I know for sure
You're the one I need

I can hold it back no longer
My love belongs to you
This is more than just a feeling
I will always guide you through

What's the way to your heart
Let me follow you, all around the world
What's the way to your heart
Let me follow you, all around the world
Don't you know I'll be the one
Our love has just begun
You're the angel of my dreams don't run away
What's the way to your heart

No, don't turn around
True love is what I found
You're, the one for me
Need you night and day

What's the way to your heart
The way to your heart
What's the way to your heart
The way to your heart
