

# Wonderful World

DJ Bobo

It's a wonderful world where we belong to  
There are so many things we can learn  
It's a wonderful world and we will promise  
We will take our chance

It's a wonderful world where we belong to  
We have a heart full of dreams  
It's a wonderful world and we will promise  
We will take our chance

It's a wonderful  
It's a wonderful  
It's a wonderful world

Walk along the road, the view get's no clearer  
Don't waste your time don't let nobody hear ya  
Here is your harmony, here is your friend  
A positive spirit that's holding your hand

Stop, step back don't let somebody play the game  
Scream it out then you can take the pain  
Open up your mind, free your soul  
It's a wonderful world and we're taking control

It's a constant fight that will always last  
It's a war between the present, the future and the past  
Confusion goes on, do we know right from wrong  
Live each day like the last ,then you're strong

The clock of your life is ticking slower and slower  
If we give up our dreams we go lower and lower  
Open up your mind ,free your soul  
It's a wonderful world and we are taking control
