

# Your Heart Is My Home

DJ Bobo

I'm gonna miss you when you're not here  
Your love is all around me my dear  
I know you are the woman completing my life  
Your heart is my home

When I look at you I know your love can light up the light  
When I kiss your lips my feelings tell me, yes this is right  
When you're near me I'm in heaven, I know you're the best of my life  
Your heart is my home

The day you would leave me  
My emotions will die  
You're the love of my lifetime  
This is what I feel

I can feel you, when you're not even here  
You surround me with love my dear  
No fear, 'cause I know your love is true  
And you know I feel the same way too  
You're completing the shape of my heart  
Let us live this dream and we'll never part  
For now and forever I'll pray  
Take my hand hear me say

I close my eyes I can see your smile  
Waiting for you was worth my while  
Touch me and take my breath away  
What I feel for you is more than words can say  
Today, tomorrow and for all the time  
I hope your love is always mine  
You will never walk alone  
Cause I know, your heart is my home

Since we are together I'm feeling alive  
And I know for sure you're the best of my life  
My wife - I promise you  
To stay by your side and guide you through  
The darkest night and deepest despair  
In moments of sorrow I'm gonna be there  
I'll care for you, do the best I can do  
We can reach the stars let the sky be blue
