

Party On The Floor

DJ Earworm

It's a new generation in the house tonight
Hey oh hey oh hey
Let's take on the world all night
Everybody just have a good time

We just wanna make the world fall in love
The sun goes down, the stars come out
Touch me now On The Floor
Do it right On The Floor
What are you waiting for?
We just wanna see the world fall in love
My universe will never be the same
Go hard, go faster On The Floor

Dirty, dirty, dirty, dirty, move they say so
People when they do it so hard On The Floor
Flying, flying, flying, flying out the door
Do it right now in the middle of the floor
Yeah

I keep on movin with the Lights On The Floor
Bright Lights
So come on play me just one more song
I keep on movin with the Lights On The Floor
I'm coming back On The Floor
Think I'm coming On The Floor

It's a new generation, not afraid of flying
So you come scare me, wake up, wake up
It's a new generation, not afraid of dying
Just have a good time

Turn the lights on now, now I'm feelin so fly
Can you spend a little time
Flying, flying through the sky?
Cause I'm Buzzin, Buzzin, fly like a bee
I'm gonna make you Glad You Came
Don't stop coming back On The Floor
And I need her, baby I Like It On The Floor
Said I need her
Movin with the Lights On The Floor
Beautiful Monster
The way you move On The Floor
But I don't mind, don't stop
Don't st-o-o-o-o-p, let's go

Dirty, dirty, dirty, dirty, move they say so
People when they do it so hard On The Floor
Rolling, rolling, rolling, rolling out the door
Do it right now in the middle of the floor
Yeah

Don't tell me you're dreamin
We just wanna make the world fall in love
My universe will never be the same
Touch me now On The Floor
Do it right On The Floor

What are you waitin for?
You can make the world fall in love
On The Floor
And all that counts is here and now
I feel like money, cha-ching, cha-ching
On The Floor
And I need her, baby I Like It On The Floor
Said I need her
Movin with the Lights On The Floor
Beautiful Monster
The way you move On The Floor
But I don't mind, oh

Well we are walking through the room
You cast a spell on me, spell on me
I'm in love On The Floor
Hear the sub-car, oo-oooh
No one else can see you and me
Now stop, I got some news for you

We just wanna make the world fall in love
The sun goes down, the stars come out
Touch me now On The Floor
Do it right On The Floor
What are you waitin for?
We just wanna see the world fall in love
On The Floor
My universe will never be the same
Go hard, go faster On The Floor

La La La La La
La La La La La La La La La
Everybody's in the house tonight
La La La La La
La La La La La La La La La
Everybody just have a good time
Wake up, wake up
You can make the world fall in love
On The Floor
And all that counts is here and now
We just wanna see you shake that
