

# Chemistry

DJ Encore

It's all about chemistry  
Nobody's ever got  
What you get from me  
There isn't a thing I'm not  
Ready to be  
You bring out the best in me  
Nobody's ever got  
What you get from me

Let the music be a part of you  
When we're flying  
When we're flying  
Let the music be a part of you  
When we're flying  
Like we do

I feel it intensively  
Something I can't explain  
The pulse inside of me  
It hollers out your name  
Right in this beat  
Baby this is insane  
It's all inside of me  
It's something I can't explain

Let the music be a part of you  
When we're flying  
When we're flying  
Let the music be a part of you  
When we're flying  
Like we do

When we're flying  
When we're flying
