

Walking In The Sky

DJ Encore

So many people looking for happiness
expecting more of a brighter day
you tell your soul
runnin' from loneliness
instead of givin' your self a way

When you're walking in the sky
heaven's holding hands with you
so you better learn to fly
before you're falling through
cause I'm looking in the sky
heaven's holding hands with me
now I think I've learned to fly
I'm happy just to be

You guide me here
asking the question why
I use to close every open door
I find the sun even on cloudy skies
I have my top and I don't need more

When you're walking in the sky
heaven's holding hands with you
so you better learn to fly
before you're falling through
cause I'm looking in the sky
heaven's holding hands with me
now I think I've learned to fly
I'm happy just to be
