The fight has annihilated the enemy

General

Hurry up, tell me what's happened

It's the outcome of the battle

It has failed sir

What do you mean?

Failed

The astro-fighters launched at Pluto base have been completely destroyed in course of action sir

That means invasion is imminent

Yes sir. We don't have enough time to assemble our ocean team now

Our only hope is the X Project

Contact our moon base

Yes sir

Contact Doctor Benner Moonwing

Yes sir

Um, who's that?

Doctor. I need your help

Nothing I can do general

You must. Our astro-fighters were completely destroyed.

The X Project.

Even the name sounds mysterious

Wonder what it could be?

I guess we'll soon know

Finally, the time has come to launch our secret X Project.

But it's only 90% ready general

Well? in other words it's almost completed

Any time you like,

we'd appreciate knowing what X Project's all about

You'll know it's secret soon enough
