

Look tracy how you doing I ain't seen you for years
Are you married yet any kids? tell me how it's going
I cried so much when I heard you was going
My eyes hurt alot when I heard you was going
Why you reading this grab a tissue and smile
Look at our pictures from school and just smile
You had the cutest smile
I won't lie I pictured you walkin down the aisle
We coulda been so happy together
I wonder if your parents didn't want us together
Beautiful silly at times but real clever
I won't be surprised if I don't see you ever
But that is the reason I wrote this letter
And if you wrote back id feel ten times better
I no good things come to an end but sometimes it's like the wrong things end

[Chorus:]

Okay, when I'm sad I think back
I get the sweetest memories running through my head, so write back
Ah babe when I see us together our love will never leave
I wanna feel it forever so baby come with me
Let's run away ay ay ay ay ay (4x)

I didn't get a chance to tell you how I felt
Only my mum knew how I really felt
My heart was crushed and broke into two
I wish I could turn back time jus for you
It's funny how I see all these girls and don't care
They know to do music for me and don't care
Girls like you come rare I mean it and you don't even have 2 show it cause I
beleve it
I made a promise to you and didn't get to keep it
Best friends forever, remember, forever
I need you forever I'll keep you forever
But now it's never and I feel so down
My loves so strong I need yours now
Without you I feel like I'm just down
Coulda travveled the world together up and down
I love you babe, so tell me how you feel

[Chorus:]

Okay, when I'm sad I think back
I get the sweetest memories running through my head, so write back
Ah babe when I see us together our love will never leave
I wanna feel it forever so baby come with me
Let's run away ay ay ay ay ay (4x)

Okay, when I'm sad I think back
I get the sweetest memories running through my head, so write back
Ah babe when I see us together our love will never leave
I wanna feel it forever so baby come with me
