You know I like 'em special made for me

I call 'em and they demonstrate for me

Spent \$200K up on that body, yeah

'Cause my lil' baby ain't for everybody, yeah

That's why I hit her with that upgrade (upgrade)

I told her, "Stunt, that's the upstage" (Upstage, upstage)

Everything up and up, babe (up, up and up, babe)

Out here ballin' like we upstate

Oh, I drip her down in gold (drip, drip, drip, drip it up)

She used to tell me no

But who could tell me no? Yeah

Just how it goes, she sees the O's (yah, yah)

And now she wanna roll

I hate to see her leave sometimes, but that ass on "woah"

My lil' baby on thick, thick

Girl that ass too fat, so don't quit

You know I like it like that, don't quit

You're doin' good right now, don't quit

Put your old jeans on, now they won't fit

My lil' baby on thick, thick

Girl that ass too fat, so don't quit

You know I like it like that, so don't quit

(Let's go!)

Drip lil' baby down in VVS' (VVS)

Cuban link, girl that's a new connection (Cuban link)

It's me and you 'cause we in the selection (select)

Throw it back like it's your new profession (new profession)

Yuh, like you get paid for it

Good brain like you get grades for it

Woodgrain, you got a taste for it

Leather soft, your body made for it (yah!)

Oh, I drip her down in gold (drip, drip, drip, drip it up)

She used to tell me no

But who could tell me no? Yeah

Just how it goes, she sees the O's (yah, yah)

And now she wanna roll

I hate to see her leave sometimes, but that ass on "woah"

My lil' baby on thick, thick

Girl that ass too fat, so don't quit

You know I like it like that, don't quit

You're doin' good right now, don't quit

Put your old jeans on, now they won't fit

My lil' baby on thick, thick

Girl that ass too fat, so don't quit

You know I like it like that, so don't quit

(Let's ride!)

Baby can we pick it up?  
Come over here and sit down  
Lil' mama got a vibe, let's ride  
On it for a couple weeks now  
Yeah, you know it's you and me now  
Top off with the seats down  
Baby I'm a savage  
Gassed up, couldn't pass it  
Ran it back like a rerun  
She sittin' pretty like a classic  
Green light, we on go  
And now she wanna roll  
I hate to see her leave sometimes  
But that ass on "woah"

My lil' baby on thick, thick  
Girl that ass too fat, so don't quit  
You know I like it like that, don't quit  
You're doin' good right now, don't quit  
Put your old jeans on, now they won't fit  
My lil' baby on thick, thick  
Girl that ass too fat, so don't quit  
You know I like it like that, so don't quit

Let's go!
