

# Hold You Down

DJ Khaled

I'll hold you down  
I'm on my way (DJ Khaled!)

All you've been thinking about  
Do anything you want and let emotion rule your mind (rule your mind)  
And now you say you dream about doing it anywhere  
Oh yeah, just tell me where it's on your mind (on your mind)  
Sit in my whip and see the stars (and see the stars)  
Show me just who you are (show me just who you are)  
You know who really hold you down (hold you down)  
And when you not around (when you not around)

I'll hold you down  
(I'm the one gon' hold you down, I'm the one gon' hold you down)  
I'm on my way  
(I'm the one be rolling up in that Bentley truck)  
(Some rollin' up)  
Want you like right now  
(You the one that got all I need, give me all of you or all of me)  
I'm on my way  
(I'm the one that's gon' hold you down, I'm the one gon' hold you down)

I had some problems back home (so I heated up)  
I ain't with that bullshit at all (then I laid it down)  
Maybe it's that Virginia in me (nigga say something)  
Have a young nigga go so hard  
Through it all you stuck with me  
Through it all you never ducked off like a coward when he hit me  
Get me? Girl I swear to God you the real one and you know it  
And I don't hurt anyone of ya'll for the real one and you know it  
And I hold it down  
Started from the bed, ended up on the floor  
And now let that ass up off the ground  
I'm a put you on my shoulders, let me give you what's in store  
Girl, you deserve it, all the time you been servin'  
Away from the realest nigga in it, I'm a take you away  
And I hold you down, (I'm a hold you down)  
I'm a hold you down baby

I'm the one gon' hold you down  
Put you in that Ghost so you enjoy the town  
Even when the roads is down, you mesmerized by the flying sky  
We gotta socialize and cherish times  
This shit is deeper than love  
I pull up in that Lamborghini, the doors in the sky  
Shit is straight up suicide  
You in that new Bentley truck, new, new Bentley truck  
Oh, oh, oh, ooh  
We've been playing in that Versace  
We go to Abu Dhabi for a hobby  
Your body my new Bugatti

Live an expensive life and I'm just getting started  
I get instant hype cause you forever my lady  
Forever my baby (real life)  
Hold you down, hold you down  
Girl you helped me up when I was down

In and out, girl  
Hold you down like I'm supposed to  
Real nigga, I know you, real nigga, I know you (another one)
