

It ain't Over Til It's Over

DJ Khaled

I said we the best at making this green
I swear Mountain Dew ain't got nothing on my team
F is for the family that's holding me down
I think niggas know who run this town
A is for the action i'm all about
Blow a nigga's head off, kill all the doubt
B is for the big boys with the grown money
And bad bitches who ain't gotta spend their own money
Shots of 'tron at like 4 in the morn'
It ain't over til it's over
Loso i'm gone

Lights stay on, they don't fade
Take my last call don't hold your breath
Every day make something out of nothing
Move a mountain and still keep running
Never come down make no mistake

They can say ay
That my end is on the horizon
When I wake
All I see is the sun rising
And just when you thought I said all there was to say
I get the last word
It ain't over til it's over
Just when you thought I did all there was to do
I gave my best to you
It ain't over til it's over
It ain't over til it's over
It ain't over til it's over

I smoke weed, you sip on lean
People always sayin' what the hell does that mean
J is for the justice I did to the game
Lot of these niggas that's on is lame
A is for the way I airs 'em out
Coupes by the two's I pairs 'em out
D's for the dope that a nigga still pumpin'
12 hour shifts got the spot still jumpin'
Rocking on til the block is gone
38 is snub nose but the chopper's long

And everything takes time so they say
Been on my side every day
Every second gone is another way to come up
Been the pawn, I crashed into the jackpot
Twists and turns I can take

They can say ay
That my end is on the horizon
When I wake
All I see is the sun rising
And just when you thought I said all there was to say
I get the last word
It ain't over til it's over
Just when you thought I did all there was to do
I gave my best to you

It ain't over til it's over
It ain't over til it's over
It ain't over til it's over
