If I die tonight, bury me in the hood

With all the jewelry on, make sure I'm looking good

Rob who nigga? I wish a nigga would

Point 5, don't shoot, that's how the lames do it

Word on the street somebody put a hit on me

I'm in the foreign, top off, look like I'm worried homie?

Better send them now, got bout a mill on me

You rob me; I kill you, now that's a deal homie

Two-twenty-three

Carbon one-five

Old black bitch with me, that's that forty five

Been real, never snitched nigga my whole life

Heard a nigga whacked him. He shouldn't have testified

Burning more than rubber, money ain't a object  
I'm number 1, and hurt they feelings in the process  
Cop a bird, then your really seein progress  
I'm buying cars like I'm in a contest  
Say my name, rappers lookin like a bomb threat  
I'm the winner, these beginners talking nonsense  
Brain from your till she render me unconscious  
I'm so conscious of DNA in my closet  
My show account can't take another deposit  
Ladies heartthrob labelled me the odd ball  
3.5 cause I'm known to start small
