You might find me in the Century Club Fresh kicks, fresh cut, pocket full of dubs Box of Altoids for my paranoid niggas actin' foul Stop smokin' if you can't be proud Adult star night, not another bar fight Inglewood players actin' right in the spotlight Me I'm righter than invisible set I'm visibly wet, slurrin' and I'm lookin' for my pet I pass to the massa with her whip on her, ask her If she sippin' wit'cha bird, if she not we move past her And I ain't hatin' I'm just diggin' ya ass girl Is that the collagen shot, is that what'cha momma got? I'm so rugged, bullet wound in back of the axe handle blunt force trauma kinda tuggin' And I ain't never been what the cat drug on B-Real Quik's to keep ya mean muggin' California clownin', bounce to sundown In the moonlight groovin', trippin' off the saloon fight We Fandango, the next day hangover got me feelin' like I hit a train with my Range Rover

[Chorus:]

Feel free to lose your mind, let'cha brain go
Fuck the tango do the Fandango
Triple step, right left, then you let'cha dame go
Spin around 'til you get a hangover
Take your doo rag off, let your brain grow
Fuck the tango do the Fandango
Triple step, right left, then you let'cha man go
Spin around 'til you get a hangover

Watch me climb out the whip with the bird on my hip She wanna set it off in the club, don't trip We crack a bottle and all my fam take a sip Any haters wanna pop at the lip, we come equipped We get the paper and the savor the flavor but never forget about the haters who constantly imitate us Homey we creators and players and rhyme sayers for layers of words, let me say it in terms that you can understand So clearly, you feelin' me fam? She's on the floor cause of my homey Quik man And she hits the mall but you don't really understand Yeah I seen it before but now it's gettin' out of hand Mami's diggin' for more, and she's posin' for the cam Little beef got the dance floor slammed No tango, straight Fandango Birds flock to us like heads to Kangols, c'mon

[Chorus]

Feel free to lose your mind, let'cha brain go
Fuck the tango do the Fandango
Triple step, right left, then you let'cha dame go
Spin around 'til you get a hangover
Take your doo rag off, let your brain grow
Fuck the tango do the Fandango
Triple step, right left, then you let'cha man go
Spin around 'til you get a hangover

I'm a master in disguise, movin' swiftly to the thighs Move faster than me, then I recognize That I ain't really got nothin' to hide But the bratwurst skinny girl second, fat girls first And Compton is still on my mind I remember when we used to get scared when they got behind us One-time sayin' they been tryin' to find us But they got the wrong niggas, never mind us My tongue tumbles like I'm bumblebee stung Rip out the stinger, you keep talkin' shit I whip out the ringer How many times does it have to end right before 12: 00 A.M., why you packin' a Slim Jim? I gets down on the mic like I rode down on a bike Road rash, skin peelin' tonight The club ain't never crackin' 'til the haters be gone We need to build the eliminator hater light, and put it on 'em

[Chorus]

Feel free to lose your mind, let'cha brain go
Fuck the tango do the Fandango
Triple step, right left, then you let'cha dame go
Spin around 'til you get a hangover
Take your doo rag off, let your brain grow
Fuck the tango do the Fandango
Triple step, right left, then you let'cha man go
Spin around 'til you get a hangover
