

Came from nowhere  
A yearning I burn for the high  
I am somewhere, can't you tell  
From the colors in my eyes

Don't even go there  
I like what I'm feeling alright  
And liberation is only a state  
Of my mind

Jubilant's the trip in my mind has arrived  
Hallucinations, my visions are all warped design  
In my elation, I'm lost in a wormhole of time  
Inhalation, distorting the suicide signs

Inhalation (4x)

Go go go it's a good day  
For getting out of my head  
Go go go flying high  
Go go go it's a good day  
For getting out of my head  
Go go go flying high
