

# You Get Around

DJ Rap

Don't you get around (4x)

Why do you put me in a danger zone  
Why do you play me  
Don't you need what you're gonna bring on home  
Why do you betray me

No way left to crucify my pride  
I need to protect me  
Can't live life a suspicious bride  
Better eject me

Don't you get around (4x)

Don't try hard 'cos I won't forget you  
Killing me softly  
Time has shown that I could regret you  
Nothing should shock me

Tried so hard just to pacify  
My jilted pride  
Tried so hard just to justify  
Your twisted lies  
Your twisted lies

Don't you get around (4x)
