Erase You

DJ Shadow

She was buried for a long time
Disappeared into the night
She had a voodoo smile
And a devil inside
So she's been down to the ???
Spitting words out like her name
They got devils inside
That explode in your face

You gotta be so careful
Don't talk in your sleep
You gotta be so careful
'Cause the souls can hear

He was quiet for a long time
He never was asleep at night
He knew every little short cut
He did everything right

Trying to be so careful
So he wouldn't speak
Trying to be so careful
To hide his disease

Under the blood red sky
Under the blood red
Under the blood red sky
Under the blood red

Erase you
???
Broken free
'Cause it's feeding time
And they're sharpening their teeth

Erase you
Can't hear the noise when it gets too much
When it gets too much you can't hear the noise

Erase you
Can't hear the noise when it gets too much
When it gets too much you can't hear the noise...
