

## Waveforms

Django Django

Waveforms, reach through my mind  
And take me back there tonight  
The reverb I feel, it signals to me  
It's never been far from sight  
A long time ago, my heart was in two  
It's written in black and white  
The rhythm machine through the smoke and the screen  
Their heads in the hills tonight

Oh you wanna know why  
All these rivers run dry  
And when I see you again  
I see it there in your eyes

Radar, scanning my mind  
Lost in the clouds above  
The rattle of drums, the click of my thumb  
Their eyes in the hills below

Oh you wanna know why  
All these rivers run dry  
And when I see you again  
I see it there in your eyes  
I see it there in your eyes

Touch it, break it, shake it yeah  
Take it apart and break it yeah  
try to rearrange it yeah  
couldn't recreate it yeah  
couldn't recreate it yeah  
couldn't recreate it yeah
