

## Body Moves

DNCE

(Ow!)

(Hey, that's right!)

(Oh!)

Side by side

Walking home, stumbling home, getting curious

What's on your mind?

Cause what's on mine, a dirty mind

Why so serious?

Baby the stars above will light the way

Just take my hand and hear the words I say

Yeah, when the morning comes, I'll always stay

You gotta know, you gotta know that I'm feeling this

Come and roll with me, we'll rock them body moves

Me and you (oh, just a little bit)

Body moves (yeah, just a little bit, ow!)

Come on home with me, oh baby, let it loose

Me and you (oh, just a little bit)

Body moves (yeah, just a little bit)

I don't need it, but you know how bad I want it

And your touch has got me haunted, but I li-I-ike it

Come and roll with me, we'll rock them body moves

Me and you (oh, just a little bit)

Body moves (yeah, just a little bit)

We've got all night

Show me more, a little more, it's getting scandalous

Yeah, all my life, yeah

I'm waiting for, the girl next door to get real dangerous (real dangerous)

Baby the stars above will light the way

Just take my hand and hear the words I say

Yeah, when the morning comes, I'll always stay

You gotta know, you gotta know that I'm feeling this

Come and roll with me, we'll rock them body moves

Me and you (oh, just a little bit)

Body moves (yeah, just a little bit, ow!)

Come on home with me, oh baby, let it loose

Me and you (oh, just a little bit)

Body moves (yeah, just a little bit)

I don't need it, but you know how bad I want it

And your touch has got me haunted, but I li-I-ike it

Come and roll with me, we'll rock them body moves

Me and you (oh, just a little bit)

Body moves (yeah, just a little bit), oh

(Ha, that's right!)

(Go) (16x)

Yeah, when the morning comes, I'll always stay
