

If I Fall

Doc Walker

I've been waiting for the perfect moment
My hands are shaking but my heart is true
I've been waiting to say I love you
But I want to be sure you'll say you love me too
So baby, won't you say it with me
Or leave me out in the cold?
If I fall right here, would you carry me home?
And if you feel the way I feel
Then you've got to let me know
If I fall right here, would you carry me home?
Pulled off the highway, let the motor idle
Girl, there's a reason why I brought you here
I said I love you and sat there silent
That one moment felt like a thousand years
So baby, will you stay with me
Or leave me out here in the cold?
If I fall right here, would you carry me home?
And if you feel the way I feel
Then you've got to let me know
If I fall right here, would you carry me home?
I've been waiting for the perfect moment
My hands are shaking but my heart is true
