

Just Drive

Doc Walker

We couldn't stay on the tailgate
It started raining
So we drove around for awhile
Then passed your house three times

I knew that you were holdin' back something
'Cause you turned to me each time
And said, "Just drive"

So I'll follow the yellow line
And you can tell me what's on your mind

Is it trouble with love or just everyday life
Are you cryin' yourself to sleep at night
Oh, should I ask if you're alright
Or keep it to myself and just drive

The only time I saw you smilin'
We were crossin' the city limit line
Into the great divide
The old truck kept rollin'
We didn't notice the fading rear view lights
Of the town we left behind

It feels like we're on the run
But what are you runnin' from?

Is it trouble with love or just everyday life
Are you cryin' yourself to sleep at night
Oh, should I ask if you're alright
Or keep it to myself and just drive

So I'll follow the yellow line
And you can tell me what's on your mind

Is it trouble with love or just everyday life
Are you cryin' yourself to sleep at night
Oh, should I ask if you're alright
Or keep it to myself and just drive

Just drive
