

Right Here Beside Me

Doc Walker

Here you're standing at my door again
I wish this night would never end
But now you say that you've got different plans
I still don't understand

Girl, you don't have to be afraid
I'm not here to take your heart away
I got a million reasons why you should stay
I could go on and on and on all night

I don't know why you'd want to leave
'Cause I believe

Right here beside me is the best place for you
The best place for you would be
Right here beside me is the best place for you
The best place for you to be

You find it hard to look me in the eye
Must make it easier to say goodbye
What would it hurt if you stayed the night
I'd love to see you in the morning light

When it comes to you, I can't get enough
You're all that I'm thinkin' of
If you want it, girl, you've got my love
It goes on and on and on for life

Right here beside me is the best place for you
The best place for you would be
Right here beside me is the best place for you
The best place for you to be

I don't know why you'd want to leave
'Cause I believe

Right here beside me is the best place for you
The best place for you would be
Right here beside me is the best place for you
The best place for you to be

Right here beside me is the best place for you
The best place for you would be
Right here beside me is the best place for you
The best place for you to be
