

Epic Last Song

Does It Offend You, Yeah?

I can't believe I've made it here
today I'm afraid of yesterday
I grow, as near to you, my dear
in case, afraid, this fades away

I say baby, babe I've loved you a long time
I try harder just to know you're all mine
I say baby, babe I've loved you a long time
I go happy knowing that you're alright

I call today, I miss you again
todays the day I go up in flames
I send the money to you my dear
todays the day I burn away

I say baby, babe I've loved you a long time
I try harder just to know you're all mine
I say baby, babe I've loved you a long time
I go happy knowing that you're alright

I say baby, babe I've loved you a long time
I try harder just to know you're all mine
I say baby, babe I've loved you a long time
I go happy knowing that you're alright
