

## The Knife

Does It Offend You, Yeah?

Desire  
His mind was torn up with desire  
His mind was torn up with desire  
He didn't even know

He transpires  
His face was caught up in a fire  
His face was burned in the fire  
He still didn't know

They gave the knife to our fathers  
Disguise, transform and outburst  
They gave the knife to our fathers  
To save your sons and daughters

The rise  
A media parade in disguise  
A media parade in disguise  
Will we ever leave?

A different mice  
Of the knife sent here to inspire  
The knife sent here to inspire  
Still we never learn

They gave the knife to our fathers  
Disguise, transform and outburst  
They gave the knife to our fathers  
To save your sons and daughters

Please...  
Breathe deep...  
So I wouldn't lose my friends...  
(We'll ride back in and set them all to fire!)

We stole the knife from our fathers  
To save our sons and daughters  
Hey hey hey!
