

## Walk With Me

### Dog Eat Dog

I'm getting ready to cut off the light pull out the plug It's the end of a chapter and I had enough Sick of being flat broke while you all floss Tired of working like a dog while you all boss You'll see there's so much to me than just an employee Getting paid or getting played like a slave to the wage I'm saying

Seems like my sky's always cloudy grey Ready to pour like in a storm When the air get's cold & the ground is warm That combination is raw power Producing thunder lightning rain storm & hail showers That's the forecast all the time In the cumate of my mind The sun is only shinging when I'm rhyming That's the time I feel alive and

That's the way it must be some people got it easy Not how it is for me and probably never will be I'm stuck here down in the dirt living with pain and the hurt i feel inside & I know why but sometimes I just

Break out no filter gotta let my worst out Something I can't prevent Sometime I gotta vent Deal with the consequence & the punishment In the violent environment that I represent You see why I'm belligerent?

I hate being broke It sucks being poor I'm in a pressure cooker I can't take it anymore Gotta do something for myself Make some kind of plan It's a fucked up situation For a desperate man

Backed into a corner the beast reacts Let the lyrics tell the story like heroin tracks I'm for the hardcore losers the branded & the users Ain't quitting I refuse to So many times I thought I'd drop it Haters want me to stop it Even though they couldn't knock it So unless you're ready to top this please Step off You don't want me to let off My dogs in here pure pedigree & the mutts in here Nothing to lose less to fear

Yeah I'm getting that paper by busting these rhymes Or I will snatch that paper by doing the grime There's nothing interrupting what's me & mine It's yours it's mine that's right yo

By any means necessary My work ethic is legendary I'm willing able ever ready There is no doubt I rock steady I'm permanently pugnacious Stay terminally lungracious Never given a chance I'll take it Show me a rule & I'll break it

I'm in the grind most of the time Out of my mind you can't help me Nothing to lose I sing the blues

Walk in my shoes walk with me Walk with me ya'll walk with me T

hese dogs right here walk with me
