Dog Eat Dog

Just because the earth is round, don't mean you've got the righ t To treat it like it was a basketball. Pass it to the left, shoot it from the right Destroying it is gonna take it's toll...

Just because the earth is round, don't mean you got the right To kick it like it was a soccer ball. Kick it to the ground, pass it to the sky Destroying it is gonna take it's toll...

Oh no, I don't feel so good. The world keeps spinning, here comes lunch.

All the dumping and spilling and burning and killing that's goi ng on all over the globe How will the dumping and spilling and burning and killing affec t us? Nobody knows. Some wreck the state of the earth, some cry for the sky It don't make a difference, we're the ones who are gonna die.

Oh no, I don't feel so good. The world keeps spinning...
