

Pour Some Urine On Me

Dog Fashion Disco

Urine love with a robot
With dysfunctional genitals
And violent mood swings

Urine love with an android queen
Sci-fi taboo, mistress machine

You're an angel with horns and a dick
You're an android and a man made bitch
While the devil's in the dirt
And the witch is on the sun
This is fun, fun
And we've only just begun

Open the flood gates
And rain down on me
Unhealthy and ugly

Your fluid embalms the scenery
Golden showers, acid rain
Pee-pee and poetry

Blue coma eyes I never want you to leave
Because desire and longing and hunger
Has got the best of me

The sun creeps through the curtains
It's almost as if you were dead
Was it something I said, said

You're an angel with horns and a dick
You're an android and a man made bitch
While the devil's in the dirt
And the witch is on the sun
This is fun, fun
And we've only just begun

Only just begun
Only just begun
Only just begun
Only just begun

The future's so bright
Let's pull down the shades

The future's so bright
Let's pull down the shades

Pour some urine on me
Pour some urine on me
Pour some urine on me
Pour some urine on me
Pour some urine on me
