

# Talk Through The Night

Dog Is Dead

Forget, everything that you knew best  
How it's cool to be unkind  
Like the feeling of the first time  
You believed in, some good guy  
We can't be cheating...  
... if we're losing all the time

Me and my friends we're  
gonna talk throught the night  
Me and my friends we're  
gonna talk throught the night

Forget...  
... every book you ever read  
(forget)  
It's not easy to be interesting.  
Over time I've made mistakes,  
I've locked all of inside a cage  
And now it's fleeting...  
... but in time I'll be alright

Me and my friends we're  
gonna talk throught the night  
Me and my friends we're  
gonna talk throught the night

We were just pretending,  
we were more than hopeless  
Now the day is ending  
and we're getting older  
'Cos no one ever wants to leave,  
something good behind

Me and my friends we're  
gonna talk throught the night

If I be good to you, can I be any  
more than that?

If I be good to you, can I be any  
more than that?

Me and my friends we're  
gonna talk throught the night (forget)  
(forget) Me and my friends we're  
gonna talk throught the night (forget)

(forget) Me and my friends we're  
gonna talk throught the night (forget)  
If I be good to you,  
Me and my friends we're  
gonna talk throught the night
