

Social Security

Dogwood

Rejuvenation,
After a soul draining trial, a natural high
Which gives a big smile to my face and my mind
Sends warm chills up my spine, an incredible feeling like security all around me

[Chorus:]

I have confidence when no one is around
Sweet Jesus stomps my fears into the ground
The shadow of death is lurking in your head
But there can't be a shadow unless light's shed

Condemnation is not what we're about
It wouldn't help, even from a shout...
In your ear you still wouldn't hear...
All we can do is witness to you and hope that you'll follow Him
.

[Chorus x2]
