## **Social Security**

Rejuvenation, After a soul draining trial, a natural high Which gives a big smile to my face and my mind Sends warm chills up my spine, an incredible feeling like secur ity all around me

[Chorus:] I have confidence when no one is around Sweet Jesus stomps my fears into the ground The shadow of death is lurking in your head But there can't be a shadow unless light's shed

Condemnation is not what we're about It wouldn't help, even from a shout... In your ear you still wouldn't hear... All we can do is witness to you and hope that you'll follow Him

[Chorus x2]
