

Bitter Regret

Dokken

Darlin' -don't let me go
until the last train rides
I wanna stay with you
when the morning comes
and it's time to rise
but I can't lift my head - baby let me die
release the sorrow - deep within my eyes
life's only borrowed

Don't build your world with bitter regret
'cause I still feel it's not over yet
what we've done we'll have to forget
or all you'll reap is bitter regret

Wonderin' -how this came to pass
why my future runs through the hourglass
talk to me - 'cause I can't lift my head
anti-social suicide lyin' on my bed
release the sorrow - deep within my eyes
life's only borrowed

'Cause I still feel it's not over yet
what we've done you'll have to forget
or all we'll reap is bitter regret

(Talkin' to my friend misfortune
take me for a ride
how I wish that I could only
give you back your life again)

Darlin' - I wanna stay with you
'till the morning comes
and that last train rides
