

Bullets to Spare

Dokken

The shootin's over
The smoke is clear
Another notch in my gun
Another round of ammunition
Before the damage is done

She wanted this
I gave her that
She said she will
I took good aim
She felt no pain
When I started moving in for the kill

Cause I've got bullets
Bullets to spare
I've got bullets- bullets to spare

My barrel's ready
My hand is steady
Tonight I'm ready for fun
I got my finger
It's on the trigger
Another night on the run

She wanted this
I gave her that
She said she will
I took good aim
She felt no pain
When I started moving in for the kill

Cause I've got bullets
Bullets to spare
I've got bullets- bullets to spare
