

Heartless Heart

Dokken

Every night is the same old thing
Baby I tried, yeah I tried
Let's put an end to this misery
Baby I cried, yeah I cried

So hot - stone cold, why'd you let me go

You got a heartless heart
Got a heart of stone
You got a heartless heart
And it's just gonna bring you down

You tell me things that I know ain't true
Baby you lied, yeah you lied
I just wanted to be with you
Baby I tried, yeah I tried

You got a heartless heart of stone
It's bringing me down- baby
You had to play the only game you've known
With my heart- with my heart- oh

Every night is the same old thing
Baby I tried, yeah I tried
Let's put an end to this misery
Baby I cried, yeah I cried
