

# Give Me Some Kind Of Magic

Dollar

Thereza Bazar / David Van Day)

I was a young man choosing to be alone  
You were a young girl breaking out on your own  
It's the change you made in me  
And your smile can make me see  
That it's easy to try  
When I know that you're taking me high  
(You take me higher and higher)

Chorus

You give me some kinda magic  
And I don't wanna lose my hold on you  
You give me some kinda magic  
'cause you set me alight when I'm close to you  
(It shows)

No good pretending don't wanna be alone  
(Don't want to be on my own)  
With you beside me we're making our house our home  
(We're going to make our house our home)  
It's the way you look at me  
'cause you set my spirits free  
And it's easy to try  
When I know that you're taking me high  
(You take me higher and higher when)

Repeat chorus

Thinking of you girl I always do  
You take up all my time  
'cause you make me strong  
And your magic lingers on  
(You take me high so high)

Repeat chorus to fade
