

Second Time Around

Dollar

Thereza Bazar / David Van Day)

They always said you were a shooting star
And you were heading straight for me
The world was ours to take we almost had it all
One year and you deserted me

So here we go again the same old show again
You came back gave no warning
Look out heart you know I'm falling

Chorus

You said you wouldn't leave me
The second time around
You said you won't deceive me
The second time around
I know I'm gonna try don't take me for granted
You said you wouldn't leave me
The second time (second time) around

Your face is idolized all over town
But they don't know you like I do

So here we go again the same old show again
You came back gave no warning
Look out heart you know I'm falling

Repeat chorus

So here we go again the same old show again
You came back gave no warning
Look out heart you know I'm falling

You said you wouldn't leave me
The second time around
You said you won't deceive me
The second time around
I know I'm gonna try don't take me for granted
You said you wouldn't leave me
The second time (second time)

You said you wouldn't leave me
The second time around
You said you won't deceive me
The second time around
