

## Getting in My Way

Dolly Parton

I wish I could forget you, but I won't  
I wish I loved another, but I don't  
It's just the same, day after day  
Your memory keeps getting in my way  
But I'm hoping I will be alright  
But I don't even sleep at night  
I close my eyes I see your face  
Your memory keeps getting in my way

I don't know why I can't forget you  
I don't see why I should let you  
Keep messing up my mind with all those thoughts of yesterday  
Your memory keeps getting in my way

It's easy for someone to lie  
I'm saying I'll forget you and I'll try  
Here's hoping that I will someday  
Your memory keeps getting in my way

I don't know why I can't forget you  
I don't see why I should let you  
Keep messing up my mind with all those thoughts of yesterday  
Your memory keeps getting in my way
