

I Hope You're Never Happy

Dolly Parton

I wish you all the luck I wish you only the best
Satisfaction in love, and true happiness
I wish you blue skies and rainbows, I wish you joy pure and sweet

I wish you all that you wish for, but only if you're with me
I hope you're never happy with anybody but me
I wish you nothin' but trouble if you've decided to leave
I'm just not like those heroes found in books and on TV
I hope you're never happy with anybody but me

I have had you too long, I have given too much
I have loved you too strong to think of giving you up
I've always envied those lovers that wish you well when you leave
And wish you luck with another
