

# Savin' it for You

Dolly Parton

I've been waiting for so long  
For someone who's as wonderful as you  
Someone who's kind and always cares  
And baby you're the answer to my prayers  
You appear and I'm brand new  
I love it, hey, I love it 'cause it's you  
And for all the sweet things that you do  
You got a little present comin' you

You pick me up  
You keep me high up in the sky  
Honey, yes you, you fill my cup  
You keep a shiny and twinkling light in my eye

I've been savin' it for you  
All my love, all my love, all my lovin' for tonight  
I've been savin' it for you  
For you, for you, for you Mister Right  
I've been savin' it for you  
All my love, all my love, all my lovin' for tonight  
I've been savin' it for you  
For you, for you Mister Right

All those worries back in town  
Forget them 'cause they're nowhere to be found  
All you find right here is love  
And baby you are what I've been dreamin' of  
Close the door and feel the fire  
I'll love you, hey, I'll love you to the wire  
And for the wonders you inspire  
You got a little present comin' you

You pick me up  
You keep me high up in the sky  
Honey, yes you, you fill my cup  
You keep a shiny and twinkling light in my eye

I've been savin' it for you  
All my love, all my love, all my lovin' for tonight  
I've been savin' it for you  
For you, for you, for you Mister Right  
I've been savin' it for you  
All my love, all my love, all my lovin' for tonight  
I've been savin' it for you  
For you, for you Mister Right

Let's say hello a special way  
Lovers who love and love to play  
You have been all that I can think about  
There's never a doubt it's you  
And you alone that turns me on  
Anticipation now is gone  
And we're alone  
So just get comfy and, oh yeah, unplug the phone

I've been savin' it for you  
All my love, all my love, all my lovin' for tonight

I've been savin' it for you  
For you, for you, for you Mister Right  
I've been savin' it for you  
All my love, all my love, all my lovin' for tonight  
I've been savin' it for you  
For you, for you Mister Right

Savin' it for you  
I've been savin' it, savin' it, savin' it for you  
Savin' it for you  
Been savin' it for you Mister Right
