

## She Never Met a Man (She Didn't Like)

Dolly Parton

I know you think you love her and you're making plans to leave  
But I must tell you something I just hope you'll believe  
I know it isn't real love that you see in her eyes  
Cause she's never met a man she didn't like  
And you're no different from the others  
A new acquaintance in the night  
You mean no more to her than all the others she's held tight  
But I know she's convinced you it was love at first sight  
But she's never met a man she didn't like

I must let you go but I want you to know  
That I love you please don't let her ruin our lives  
For there'll be other men and she won't want you then  
She's never met a man she didn't like

I must let you go but I want you to know  
That I love you please don't let her ruin our lives  
For she'll have other men oh and she won't want you then  
Cause she's never met a man she didn't like  
Oh no she's never met a man she didn't like
