Too Lonely Too Long

Dolly Parton

No matter how you're tempted Don't say yes to me Don't make this night as smooth to lead me on It's just that I'm so lonely and I need someone I've been too lonely too long Oh please be strong enough to refuse me Before I let myself do something wrong For down inside I'm not that kind of woman I've been too lonely too long

Oh please don't take advantage of the situation For I'm afraid that I'm too weak to resist temptation When you're used to being loved It's hard to live alone I've been too lonely too long I've been too lonely too long
